# CSS 2018
10th International Symposium on Cyberspace Safety and Security

October 29-31, 2018

Hotel La Bussola - Amalfi (Salerno), Italy

The CSS-2018 symposium provides a leading edge forum to foster interaction between researchers and developers within the cyberspace safety and security communities, and to give attendees an opportunity to network with experts in this area. It focuses on Cyberspace Safety- and Security-related topics such as authentication, access control, availability, integrity, privacy, confidentiality, dependability and sustainability.

CSS 2018 was the next event in a series of highly successful events focusing on cyberspace safety and security. In the last 9 years, the CSS conference has been successfully held and organized all over the world: Xian, China (2017), Granada, Spain (2016), New York, USA (2015), Paris, France (2014), Zhangjiajie, China (2013), Melbourne, Australia (2012), Milan, Italy (2011), Chengdu, China (2009), and Sydney, Australia (2008).

The conference aims at bringing together international researchers and practitioners from both academia and industry who are working in the areas of cyberspace safety- and security-related topics. CSS 2018 welcomes the original and innovative paper submissions from the academia, industry and government, describing theoretical advances, system design, implementation and experimentation.
